## BECOME A VIRTUAL VILLAGER

Receive unparalleled enrichment learning AND a community where you belong.

### BONUS

When you enroll in these transformative enrichment courses led by expert mentors, your child also gets access to a Homeroom Social Club at no additional cost! This is a dedicated safe space for your kiddo to connect with like minded friends for an hour per week!

- ✓ **Speech and Debate**- #1 program for building confidence, finding the voice, growing as a speaker & writer for the next generation. And having a BLAST!
- ✓ **Executive Function**- students transform as we explore executive function strategies and create individualized success plans in a fun, gamified manner!

### LIFE SKILLS/ COLLEGE PREP

### SOCIALIZING

- ✓ **Dungeons and Dragons**- watch your adventurer make friends INSTANTLY as they create an avatar, imagine new worlds, collaborate, and problem solve-- you know, all the stuff we want them to do in a fun manner?
- ✓ **Improv**- where your budding actor can say "YES, AND..." here we use humor and games to build social skills, emotional skills, executive function skills, and more!

- ✓ **Weird History**- where young historians learn all the juicy history that they should teach in schools, but don't.
- ✓ **Book Club**- where readers take a strength-based approach to reading, literary analysis, and deep dialogue!
- ✓ **World War Weaponry**- where your history buff can find their people & nerd out over WWI and WWII weaponry through in-depth primary documents

### HUMANITIES

### STEM

- ✓ **Robotics**- where youthful engineers will build and program a REAL robot at home! YEAH! This is a hands-on, deep dive into the world of robotics
- ✓ **Chemistry**- where burgeoning chemists do real, hands-on, at-home experiments with a Fulbright Scholar Chemist!
- ✓ **Design Engineering**- where curious designers develop a deep understanding of engineering and make real prototypes
